

## MY GOAL

Out of gratitude to God for His wisdom, strength, and favor in showing me how to fight for my financial freedom and for giving me the patience, persistence and endurance to obtain it. I am committed to teach God's people, and my community My philosophies and strategies that I used to obtain financial freedom through the means of **High yield option base income investing for monthly income in the stock market.**

## MY COMMITMENT

Is to teach the philosophies, methods and strategies that I used so that my students can become financially free indeed **John 8:36** by eliminating one bill at a time, investing the difference into investments that will pay them for the rest of their lives, setting up the structures necessary so they can pass their investments on to their loved ones fulfilling the scripture found in **Proverbs 13:22** and do their part to eliminate the potential of poverty ever again appearing in their family in one generation.

## MY STUDENTS

Will learn the fundamentals of **High yield option based investing for monthly income**, so that their **passive income** will eliminate their monthly expenses one bill at a time enabling them to join the F.I.R.E (financial independent retire early) family of believers in the shortest amount of time.

## MY PERSONAL CONVICTIONS

Is to equip God's people with the financial ammunition necessary to defend against the enemies attacks to rob God's people of their financial inheritance, and compromise there moral and spiritual integrity because of a lack of money to provide for a reasonably modest lifestyle.
