

MY TESTIMONY

After opening my business in 1985 and doing well enough to sustain a living for my family and I.

In 1990 I had to relocate my business with **literally \$8 in my bank account** due to the fact that it was right in the middle of a drug war in Oakland California. It was then that I promised the Lord that if he gave me the wisdom, strength, patience and perseverance to become **financially free** in this lifetime, that I would do everything in my power **to give him 100% return** on his investment towards good hardworking generous God fearing people who lacked the information and opportunities necessary to experience financial freedom while living in this land of opportunity called The United States of America. Through God's grace and a **70 hour seven day a week schedule**, 17 years later through God's wisdom and favor, the success of the business had grown to the degree that I had acquired 2 apartment buildings that were cash flowing along with my business operating in a cash flow positive position. **Only to find my wife and I completely broke one year later After 21 years in ministry and 23 years in business**, when my life savings were stolen from me with \$32,000 worth of (Between my business and the apartments) operating expenses staring me in the face monthly. But God Wasn't finished with my success story. Because I had purchased an investment that I had outside of real estate That was adding to my cash flow, I was able to sell it for \$0.50 on the dollar enabling me to begin again. So with that 70 hour a week grind, that I developed when I began my business, My Wife's **(R.I.P)** unwavering confidence and support in me, And most importantly God's grace, wisdom, and strength, we were able to retire financially free in **12 short years**, by applying the strategies and philosophies in which I will teach you in my lessons and in my course.
