

ONE-TIME COACHING FEE

\$1,000 which includes:

- A. The positions in My Portfolio that are yielding between 12 and 36% per year and my criteria for picking my positions.
- B. A specific hack that I use to boost my income monthly.
- C. A break-down of the complicated language that is used in the stock market to make it easier for my students to understand in order to become a successful high yield option-based dividend investor.
- D. A web link to meet with them once a week for 1 hour online to make sure that they are doing the homework required to become a successful high yield option-based dividend investor.

CLASSES

FREE INDEED CLASS #1

1. We will discuss the importance of knowing, and finding the **declaration date, expiration date, and payment dates** of the income ETFs that you invest in.
2. We will discuss how to evaluate the total return of the ETF's that you choose, and how important it is to determine your risk tolerance when choosing the ETF's that you invest in.
3. I will send you a custom made excel sheet so that you can track your income. Not only coming from your distributions from the ETF's that you choose, but also from other sources of income that you might acquire throughout the month. This excel sheet will also help you to track all of your expenses and charities that you donate to and then reveal to you, What percentage of your income was spent on needs, wants and charities.
